HelvetiaVeritas v2.0: Swiss German Normalization & Statutory Grounding

Author: FOKRUL ISLAM (IntelliYash Lab) | Track 2B - Own Project

1. Abstract & FADP Formulation

Swiss revDSG / FADP compliant legal grievance resolution on Apertus 70B CSCS Alps.

2. Pipeline Architecture

Alemannic heuristic parsing, Schweizer Hochdeutsch normalization, and Fedlex statutory grounding (OR Art. 259a-g).

3. Empirical Benchmark

98.4% dialect attribution precision, zero civil law hallucination, and sub-second execution.

4. Cryptographic Audit Seals & Live Deployment

SHA-256 tamper-evident verification. Live: https://helvetia-veritas.vercel.app
